MAKE A DIFFERENCE

PureLife entered the dental industry with one goal in mind: to make a substantial positive difference in human and environmental health. We believe that healthy patients, a healthy planet, and healthy profits can all be achieved—no trade-offs required. We go beyond the traditional distributor model by seeking out and offering the industry's most extensive collection of eco- and health-conscious products, while delivering unsurpassed value and service to our customers.

Throughout this catalog, we've highlighted those products that embody this commitment to good health. Look for these special designations:

PURPLE LEAF: This symbol indicates items in our PureLife Collection. These products are made with the highest quality materials at factory-direct prices. With dozens of PureLife items available in nearly every product category, you can enjoy this exceptional value with every order.

GREEN LEAF: This symbol indicates products in our Feel Good Collection. These products make a difference in human or environmental health, without impacting your wallet.

GREAT WHITE® CROWN CUTTING BURS

SS WHITE

- Cuts faster than a standard dentated (crosscut) bur and smoother than a straight bladed bur
- Aggressively cuts tooth structure and restorative materials
- Does not grab, catch, stall or break in harder-to-cut materials such as amalgam, composite, semi-precious and non-precious castings

Kit **2012105**

$55.99

CAVITY LINERS

ACTIVA BIOACTIVE BASE/LINER

PULPDENT CORP.

- BPA-free and moisture-tolerant
- Bioactive material with an ionic resin matrix, shock-absorbing resin component and bioactive fillers
- Chemically bonds to teeth and releases calcium, phosphate and fluoride ions
- No bonding agents required
- Dentin shade and radiopaque

Single Pack **1472101**
1 x 5ml automix syringe + 20 automix tips with bendable 20ga metal cannula
$127.99

Value Pack **1472102**
2 x 5ml automix syringe + 40 automix tips with bendable 20ga metal cannula
$224.99

IONOSIT BASELINER

DMG AMERICA

- Unique compensation for composite polymerization shrinkage stress through controlled expansion
- Fluoride releasing; radiopaque

2-Pack **1472301**
2 x 1.5gm syringes + 20 luer-lock tips
$85.99

Office Pack **1472302**
2 operatory trays each, containing 5 x 0.3gm Saferinges + 1 applicator pad
$155.99

COPAL CAVITY VARNISH

SULTAN HEALTHCARE

- Protects dentin from acids released by refilling materials
- Provides a chemical and thermal barrier while eliminating air pockets
- No thinner required

2oz Bottle **2016301**
1 bottle
$20.49

DYCAL®

DENTSPLY CAULK

- Radiopaque, calcium hydroxide cavity base/liner
- Rigid, self-setting material useful in pulp-capping, and as a protective base/liner under dental filling materials
- Easy to place, with ability to flow where needed while staying in place when necessary

Complete Package - Dentin **2223101**
Complete Package - Ivory **2223102**
1 x 13gm base, 1 x 11gm catalyst + 1 mixing pad and 1 placement instrument
$102.99

Placement Instrument **2223107**
1 instrument
$33.99

LIME-LITE

PULPDENT CORP.

- Cavity liner/base
- Releases favorable calcium, hydroxyl, phosphate and fluoride ions
- Chemically bonds to adhesives and composites
- Fluoride-releasing, light-cure and radiopaque

Kit **2018101**
4 x 1.2ml syringes + 20 pre-bent tips
$44.99

3ml Syringe **2018102**
1 syringe
$26.99

TEMPORARY FILLING MATERIALS

CAVIT™

3M ESPE

- Used for temporary filling of occlusion-loaded restorations
- High surface hardness
- Quick and void-free curing in a moist environment
- Slight expansion of the filling material ensures a well-sealed margin
- Pink in color

Jar Refill **2150901**
28gm jar
$25.49

Tube Refill **2150902**
10 x 7gm tubes + 1 Cavit™ Key
$60.99

CAVIT™ G

3M ESPE

- Used for temporary filling after endodontic treatment
- Reduces final hardness, increases adhesion
- Quick and void-free curing in a moist environment

Jar Refill **2151001**
28gm jar
$25.49

IRM®

DENTSPLY CAULK

- Polymer-reinforced, zinc oxide eugenol restorative material
- Designed for intermediate restorations but can be used as a base under non-resin cements
- Available in powder/liquid form or unit doses

Standard Pack - Ivory **2223201**
1 x 38gm powder and 1 x 14ml liquid
$78.49

Powder Refill **2223202**
38gm bottle
$53.99

14ml bottle
$33.49

Caps® Pack **2223204**
50 x 0.34gm Caps® unit doses
$112.49

DESENSITIZER

PURELIFE DESENSITIZER

PURELIFE DENTAL

- Equivalent to Gluma® formula
- Ideal antimicrobial when used with self-etch adhesives

10ml Bottle **1430401**
1 bottle
$49.99

GLUMA DESENSITIZER

HERAEUS KULZER

- For treating dentinal hypersensitivity
- 4th generation desensitizer

5ml Bottle **1430101**
1 bottle
$137.99

Clinic Pack **1430102**
3 x 5ml bottles
$357.49

Single Dose **1430103**
40 x 0.075ml unit doses
$91.99

DESENSITIZER

GLUMA DESENSITIZER POWER GEL

HERAEUS KULZER

- One-step gel formula desensitizer
- Green color indicator provides visual ease of placement and rinse-clean capability

Syringe Kit **1430201**
4 x 1gm syringes, 20 brush cannulas, pictorial card

$136.99

Brush Cannulas **1430202**
60/pack

$22.49

TEETHMATE DESENSITIZER

KURARAY

- Can be used to close exposed or prepared dentin and to prevent sensitivity before and after bleaching
- Occludes the dentinal tubules reducing the dentinal fluid movement and the consequent hypersensitivity
- Safe and effective tubule sealing with hydroxyapatite
- Does not contain glutaraldehyde or methacrylate

Set **1471201**
1 x 4.8ml liquid, 1 x 6gm powder + 1 measuring spoon, 50 applicator brushes and 1 mixing dish

PERMANENT CEMENTS

DURELON™ CARBOXYLATE LUTING CEMENT

3M ESPE

- Attains a relatively neutral pH value for better patient tolerance and reduced post-cementation sensitivity
- Low film thickness optimizes fit and marginal integrity of crowns and bridges
- Adhesion to both enamel and dentin for reduced microleakage
- Offered in three delivery systems: two hand-mix versions (with the liquid dispensed in either a bottle or a calibrated syringe dispenser) and the Maxicap capsule for easy, automatic mixing and direct application
- Fluoride-releasing

Intro Kit **2156901**
1 x 20gm regular set powder, 1 x 14ml liquid + 1 mixing pad

N'DURANCE DIMER FLOW

SEPTODONT

- Patented nano-dimer conversion technology
- Outstanding consistency for easy placement and ideal adaptation to cavity walls
- Lower volumetric shrinkage, causing less stress on tooth-restoration interface for improved durability
- Higher intra-oral monomer conversion of 75%, optimizing physical and mechanical properties and reducing elution of residual monomer

12/pack

$128.49

RELYX™ FIBER POST

3M ESPE

- Contains elasticity similar to human dentin for a lower risk of root fracture due to the "wedge effect"
- Unique resin composition and equally dispersed parallel fibers lead to superior mechanical strength

continued on next column

- Microporous surface allows for additional bond strength through microretentive effects
- Excellent light translucency for efficient light cure deep into the root canal
- Unique design allows for elongation tip to reach into root canal from bottom to top

Intro Kit	**2156501**

15 posts (5 each: size 1, size 2, size 3), 4 drills (1 each: size 1, size 2, size 3, universal) + 20 elongation tips

HU-FRIEDY - HYGIENE

As part of their Environdent® program, Hu-Friedy offers a free and environmentally-responsible disposal of old instruments, regardless of brand. Just return 12 used instruments and receive 1 new instrument of your choice for free. Hu-Friedy works with responsible metal scrap recyclers in the U.S. and Canada to find new life for your instruments in useful items such as bridges, car bumpers and street lights.

GRACEY CURETTES

HU-FRIEDY

- Area-specific to allow for deep scaling, root planing and periodontal debridement
- Offset blade provides a perfect working angulation for the tooth surface and offset blade angulation means only the lower cutting edge of each blade is used
- After-Five terminal shank is elongated by 3mm for access into deep periodontal pockets and root surfaces of 5mm or more and better clearance around the crown
- After-Five and Mini-Five blades are thinned by 10% to ease gingival insertion and reduce tissue distention
- Mini-Five reduced blade size is half the length of the After-Five or standard Gracey to allow for better adaption in narrow pockets
- Available in Rigid and Extra-Rigid designs for greater strength

COMPOSITE FILLING INSTRUMENTS - GOLDFOGEL CONTOURING

HU-FRIEDY

- Size 1 & 2 have identical, opposing, large, flexible, oval-shaped blades (straight and angled) for contouring composite material on larger facial surfaces of central incisors; Size 3 has flexible, oval-shaped blades (one slightly larger) for interproximal contouring on central incisors
- Size 4 is used when working near or at interproximal areas; the straight end compacts composite material, while the sharp knife edge cuts composite to avoid bonding to the adjacent tooth; Size 5 has small and medium curved blades for thinning and shaping composite material at the gingival areas
- Size 6 has uniquely-shaped blades with curved and rounded tips for adding and shaping composite material on desired areas of facial incisors; Size 7 allows formation of marginal ridges along with buccal and lingual embrasures while composite is uncured
- Size 8 is designed to help attain proper occlusal form, function and improve marginal seal; Size 9 aids in forming a properly filled axial box and occlusal portion
- Satin Steel® XTS® coating is an Aluminum Titanium Nitride (AlTiN) handle, creating an extremely hard, smooth surface that resists scratching and sticking

COMPOSITE FILLING INSTRUMENTS - GOLDSTEIN FLEXI-THIN

HU-FRIEDY

- Size 1 is a small universal-style instrument with a rounded plugger tip and a narrow paddle for initial placement and contouring of Class I, II, and III restorations
- Size 2 is a larger universal-style for final placement and contouring of Class I, II, and III restorations
- Size 3 is a flexible, reversed, flared paddle design for shaping and placement of Class III and IV restorations
- Size 4 has flexible, paired, offset, paddle-shaped blades for placing and shaping material on posterior, mesial and distal surfaces
- Size 5 has small reverse angle tips to make it easy to place fissures, grooves and pits in hard-to-reach posterior areas
- Size 6 has large reverse angle tips to make it easy to place fissures, grooves and pits in hard-to-reach posterior areas

CLEAR COLLECTION INSTRUMENTS

HU-FRIEDY

- Tear Drop provides a reservoir to hold elastics in place as the aligner is seated, permitting easier manipulation of elastics by the patient
- Vertical emphasizes over-correction of rotations by indenting at the mesial and distal line angles on the facial and/or lingual side of a specific tooth
- Horizontal produces an indention to accent individual root torque, in addition to enhancing retention of either clear aligners or retainers by placing an indent into a tooth's undercut or below a bonded attachment
- Hole Punch is used to create half-moon cutouts for relief of clear aligners around bonded buttons used for elastics
- Hole Punch can also be used to nip away plastic to provide soft tissue clearance to prevent aligner impingement of tissue

PALODENT® SECTIONAL MATRIX SYSTEM

DENTSPLY CAULK

- The original and highest-rated contoured sectional matrix system recommended for perfect contacts
- The shape of each matrix creates natural contours and profiles compared to flat surfaces and improper contacts achieved by other matrices
- Standard size matrices are ideal for posterior restorations
- Mini-matrices are ideal for limited exposures
- Plus matrices are ideal for subgingival or broadly extended restorations

Complete Kit **2227001**
100 Standard matrices, 50 Mini-matrices, 50 Plus matrices, 4 Bitine® Round Rings and 2 Bitine® II Oval Rings

PALODENT® PLUS SECTIONAL MATRIX SYSTEM

DENTSPLY CAULK

- Nickel-titanium rings provide a consistent force that separates teeth and returns them to their original shape after use, helping to deliver a tight gingival seal and anatomically-shaped restoration
- Ring tines maintain a fit on the tooth that complements the wedge and works with the matrix to seal and shape the restoration, minimizing required finishing
- Rings are stackable for multiple restorations at once
- V-shaped tines accommodate wedges from both sides
- Fine wave-shaped wings compress and flare for easy placement and minimize impingement of soft tissue

RETRACTION - CAPSULES & PELLETS

RACELLET PELLETS

PASCAL

- Green cotton pellets containing racemic epinephrine HCl to assist in retraction
- Contains 1.15gm racemic epinephrine per pellet for #2 and 0.55gm racemic epinephrine per pellet for #3
- Dispensed in a spring-loaded, self-dispensing, weighted plastic container
- Available in two sizes: #2 and #3 (#2 being the larger size)

Green - #2 200/box	**1341201** **$27.99**
Green - #3 350/box	**1341202** **$27.99**

RETRACTION CAPSULE

3M ESPE

- Retraction paste effectively deflects marginal gingiva and is gentle on tissue for improved patient comfort
- Enables a clean, dry sulcus and robust hemostasis
- Delivers a high-viscosity, 15% aluminum-chloride astringent
- Extra fine tip fits directly into the sulcus
- Unit dose capsules fit most composite guns

Refill Pack 25/pack	**2156401** **$73.99**
Value Pack 100/pack	**2156402** **$257.99**

HEMOSTATIC SOLUTIONS

GELCORD

PASCAL

- 25% aluminum sulfate gel
- Makes initial cord packing easier by providing lubrication when packing cord, allowing the cord to glide into the sulcus
- May be used with any type of plain or medicated cord and compatible with all impression materials
- Blue in color for easy visibility and placement
- Pleasant raspberry flavor

Pro Pack 12 **1840201**
12 x 0.75gm syringe applicators
$43.99

GELCORD CLEAR

PASCAL

- 25% clear aluminum sulfate gel for ultimate visibility
- Makes initial cord packing easier by providing lubrication when packing cord, allowing the cord to glide into the sulcus
- May be used with any type of plain or medicated cord and compatible with all impression materials
- Pleasant raspberry flavor

Pro Pack 12 **1840301**
12 x 0.75gm syringe applicators
$44.99

QUICK-STAT FS

VISTA DENTAL

- 15.5% ferric sulfate hemostatic gel
- Provides effective tissue management when completing impressions, restorations and crown and bridge procedures

ULTRASONIC SCALERS

CAVITRON® JET PLUS ULTRASONIC SCALER AND AIR POLISHING SYSTEM WITH TAP-ON™ TECHNOLOGY

DENTSPLY PROFESSIONAL

- Tap-On™ Technology is designed to reduce leg and ankle discomfort associated with continued foot pedal usage

continued on next column

ULTRASONIC SCALERS

- A single tap activates scaling, allowing the foot to rest during the procedure
- Prophy Mode auto cycles (short, medium, long) automatically alternate between air polish and rinse without needing to touch the foot pedal
- Finer water control allows for more precise and convenient adjustment of lavage on the handpiece to the preferred setting
- SPS Technology (Sustained Performance System) automatically adjusts system power to maintain tip stroke regardless of clinical load and conditions
- Autoclavable handpiece provides assurance against cross-contamination

Complete Unit **2240101**

1 Cavitron® Jet Plus Ultrasonic Scaler and Air Polishing System with handpiece cable with swivel, 1 Tap-On™ Technology Wireless Foot Pedal, 1 JET-Mate™ sterilizable, detachable handpiece, 2 JET Air Polishing Inserts, 1 Prophy-JET® Sodium Bicarbonate Powder (13oz bottle), 1 JET-Fresh® Aluminum Trihydroxide Prophy Powder (13oz bottle), auxiliary cable for foot control, 1 4-pack "AA" batteries, 2-year warranty (on unit only), and instructional video and manual

SATIN SWIVEL® ULTRASONIC INSERTS

HU-FRIEDY

- Reduces the torque from the handpiece cord, increasing overall balance for hassle-free scaling
- A slight rolling motion of the fingertips eliminates the old “start, stop, remove and readjust” routine required with traditional inserts
- Grip is 18% larger than standard inserts to reduce finger pinching, resulting in less hand fatigue and enhanced tactile sensitivity
- Lightly textured silicone grips provide a secure, comfortable grasp and are color-coded for easy tip identification
- Swivel XT™ is thin enough to provide access into hard-to-reach areas, yet strong enough to effectively remove tenacious deposits even when used on low to medium power

10 Universal - 25K Lavender **3367301**
